

Training Continues!

Beginning March 1, team members will receive Web-Based training assignments.

Thank you for your support in this journey and all that you do to make those we serve feel whole!

As part of the March 1 transition, team members will receive web-based training based on your roles.

If you were unable to complete the [UKG Scheduling for Team Members](#) or [UKG Time & Attendance for Team Members](#) trainings before March 1, you will be reassigned these trainings to complete in AdventHealth Learning Network (ALN) upon go-live.

Team members that were assigned role based on-site instructor led and virtual trainings during February 17-28 and were unable to attend training, you will be prompted to complete web-based training in ALN.

Your participation and engagement continue to be invaluable.
